
Trinity Learning Center Goals

Our Center strives to establish and maintain a safe, healthy, nurturing environment. We want to provide a "homey" atmosphere that gives the children a warm, secure, comfortable place to spend their time away from home.

We are committed to offering the very best in early Christian education. Our goal is to provide your child with the necessary skills to be successful and reach their potential in all areas of their development.

Spiritual development is encouraged by daily prayer time, Bible study, chapel, and teachers sharing Christian values and God's love.

Social and emotional development is enhanced by participation in activities with other children and teachers that build confidence, independence, and pro-social behavior. Intellectual development is enhanced by offering a variety of opportunities to learn beginning reading, writing, and verbal skills, as well as thinking and problem solving skills.

Physical development is promoted by activities that enhance gross and fine motor skills which are essential for future learning.

Studies have shown the impact early learning has on a child's later successes. We as parents and teachers of young children are setting the foundation for how children will feel about learning, themselves, others, and God. Our program recognizes this and is committed to providing the opportunity for each child to succeed.

Mission Statement

The mission of Trinity Learning Center is to assist Trinity congregation in sharing the Gospel of Christ as we nurture and care for children and families in the Springfield area.
